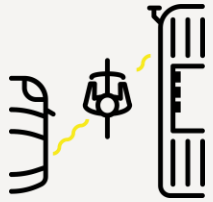
Mission Statement

2019-2023

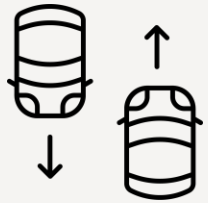
29 mio

MobiliData

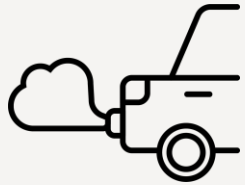
Realise a positive contribution in Flanders in relation to



Road Safety



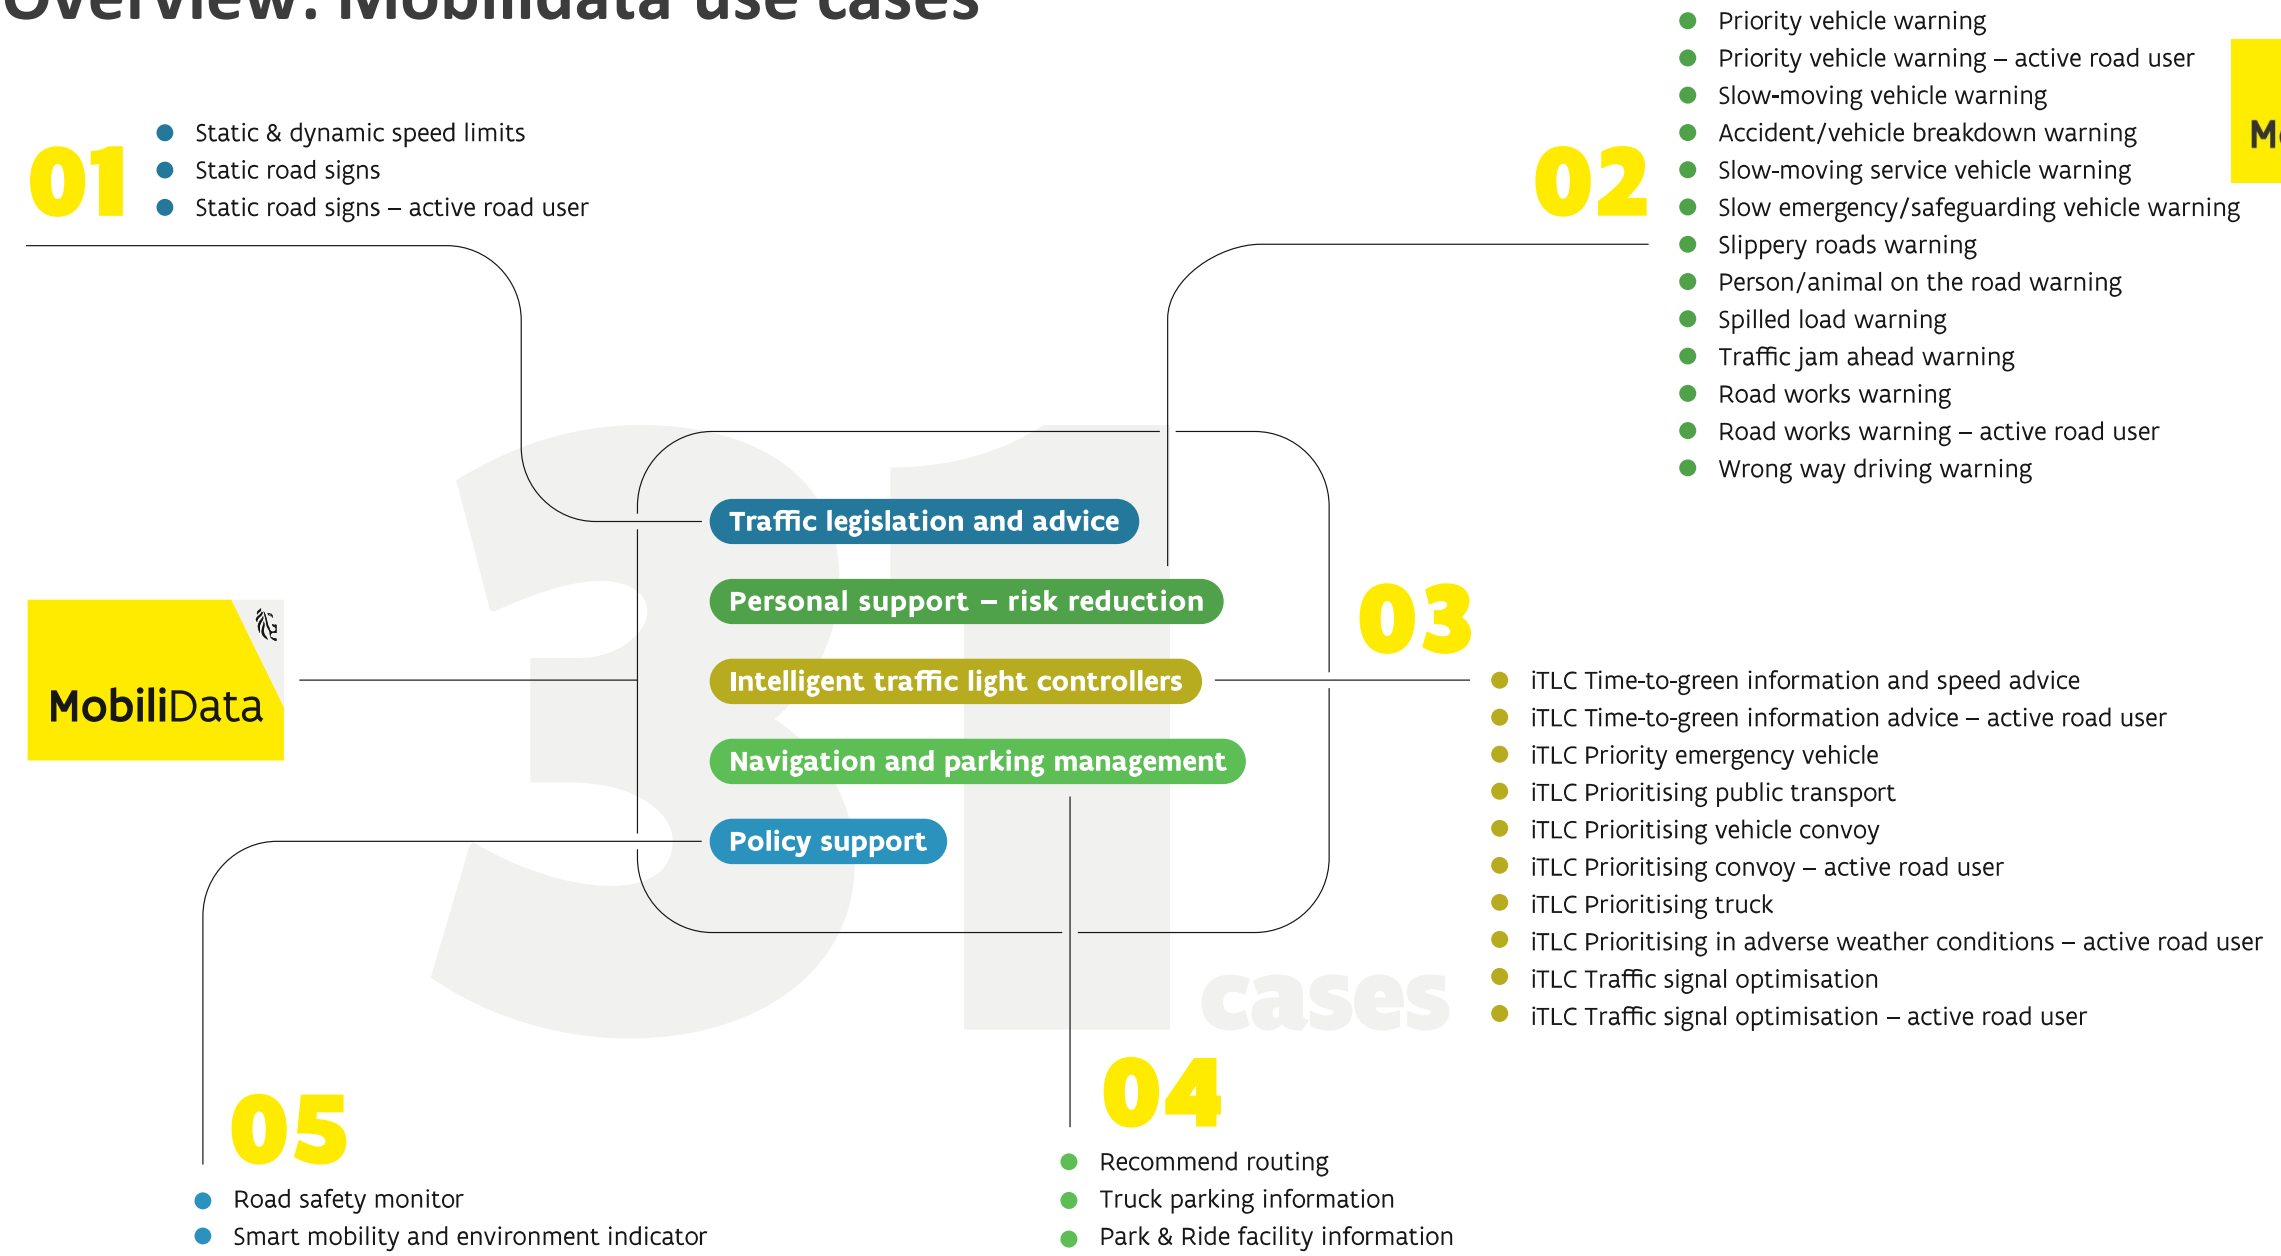
Traffic throughput



Emissions

By implementing a sustainable digital **data-infrastructure** and the stimulation of the use thereof within **innovative applications**

Overview: Mobilidata use cases

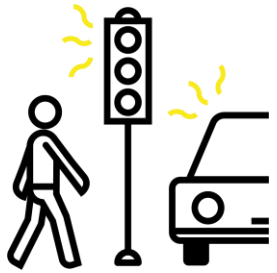


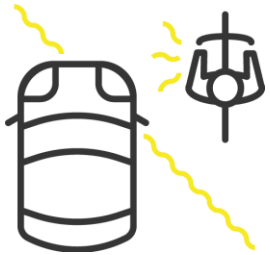
HILDE MARTINEZ
Gepassioneerd
that would make life so much easier.

Intelligent traffic lights

MobiliData

- Inspired by pioneer Talking Traffic
- Dutch-Flemish cooperation on specifications, certification, test environment
- Traffic light policy/strategy (Dept. MOW)
- Contracts open to other road authorities





Public procurement

MobiliData

1. intelligent traffic lights - ITLC

- Deliver, install, maintain and adapt the iTLC's in Flanders
- 4 contractors
- Ongoing since December 2020

2. intelligent traffic lights - RIS and ITS app

- Develop, operate, host and adapt the RIS and ITS applications
- 5 contractors
- Ongoing since July 2021

3. C-ITS core tender

- Public cloud & data / Private cloud & data / C-ITS applications
- Heading towards contract closing

Ecosystem – we reach out to you!

MobiliData

- ❑ Service providers
- ❑ Public transport
- ❑ Emergency services
- ❑ Logistics
- ❑ Cities, road authorities
