

# Slimme Schakels

Smart Mobility hubs in Antwerp

# An integrated approach

# Mixed measures

# **“Slimme Schakels” / “Smart Links”**

= multimodal mobility hubs

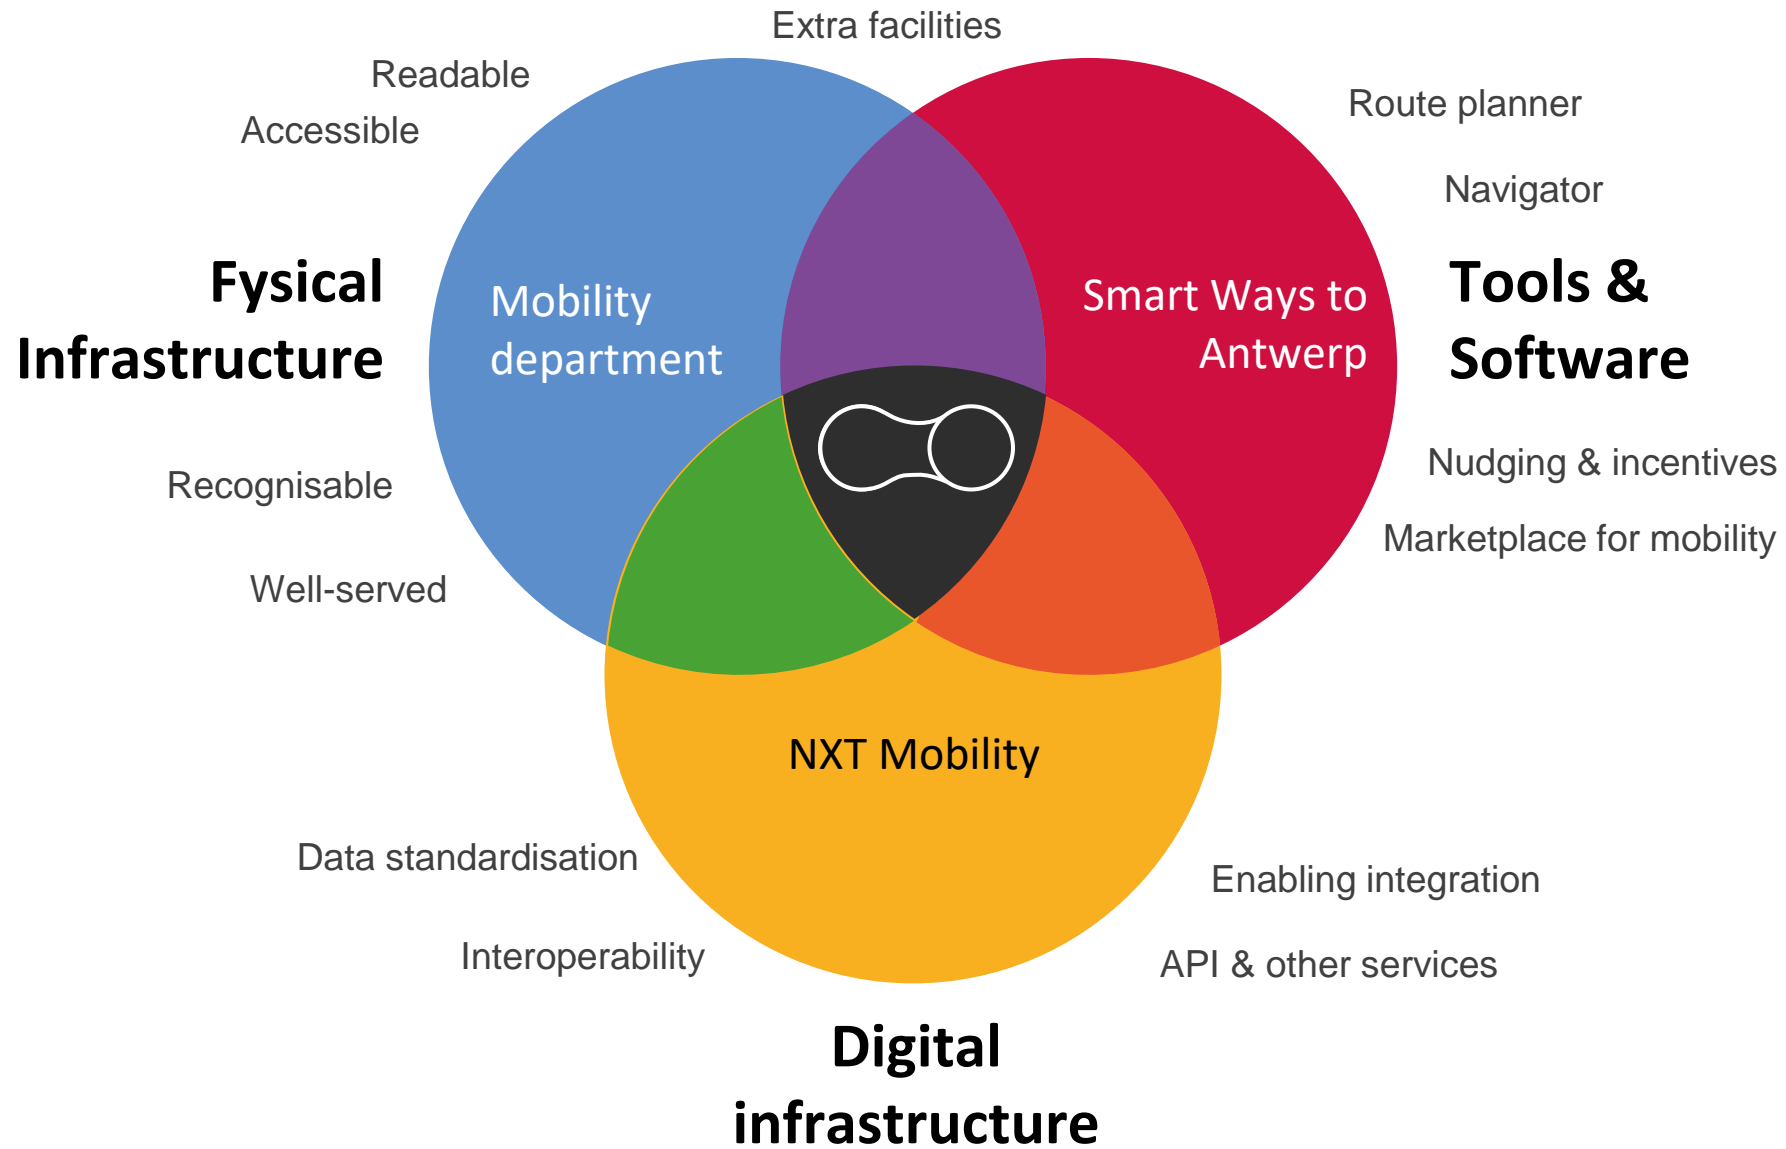

(as Mobipunten, Hoppin-points, ... elsewhere)

= working title within the city of Antwerp

= one approach towards very different hubs

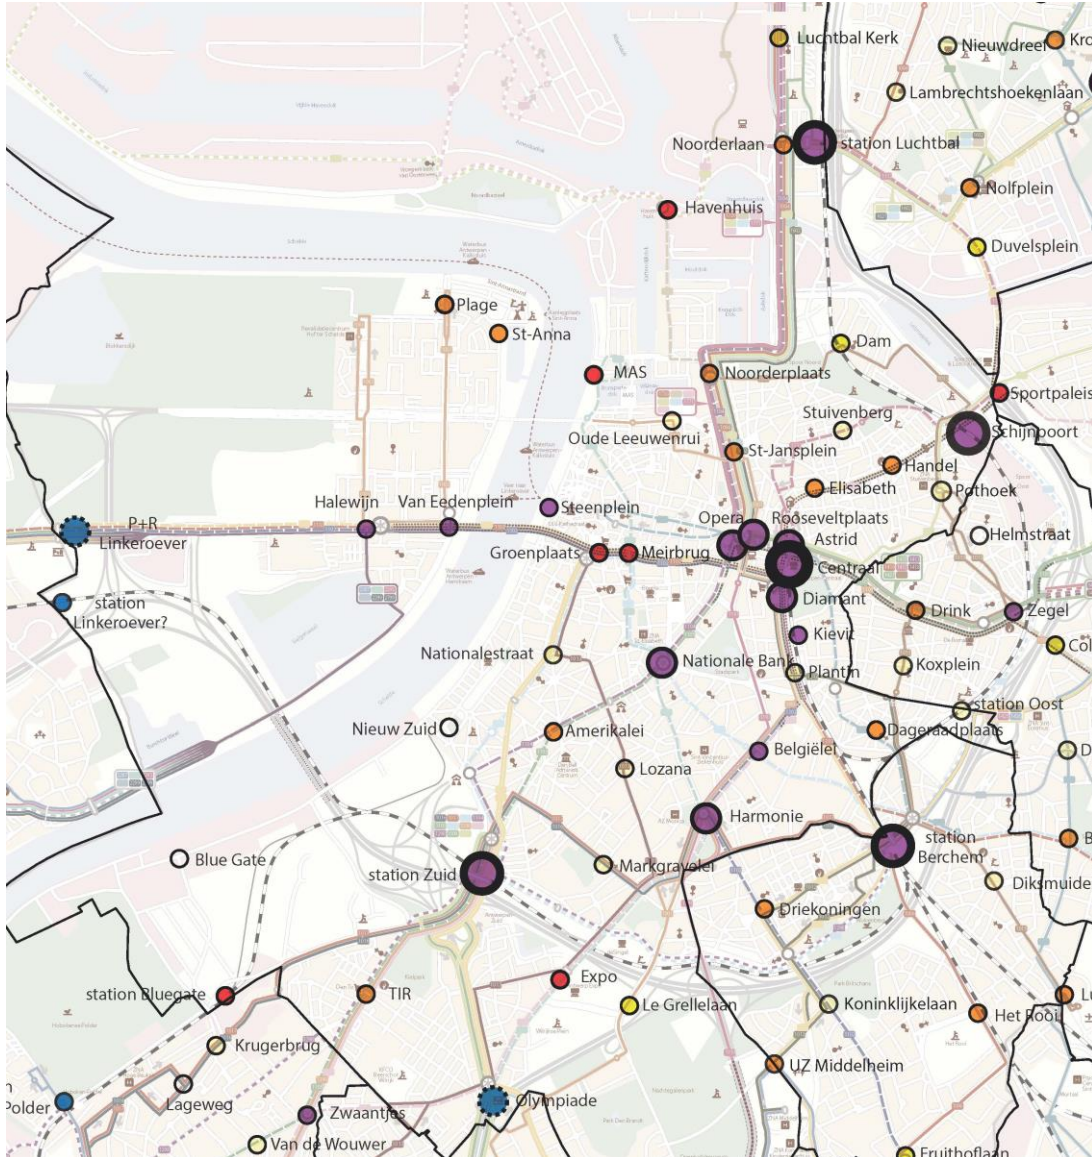

(neighbourhood hubs, regional bushubs, central station hub, P+R's, ...)

= hubs as a whole, not a prefab unit next to the station

# Locations & wayfinding

Locations & categories i.c.w. local councils, Transport Region, ...

125 hubs on Antwerp territory:

- 5 'interregional' (main stations)
- 13 'regional' (P&Rs + bus/tramhubs)
- 70 'local'
- 38 'neighbourhood'

- 50 at regional roads → by regional government
- 8 at trainstations → i.c.w. NMBS
- 3 at big new P+R's → i.c.w. Lantis

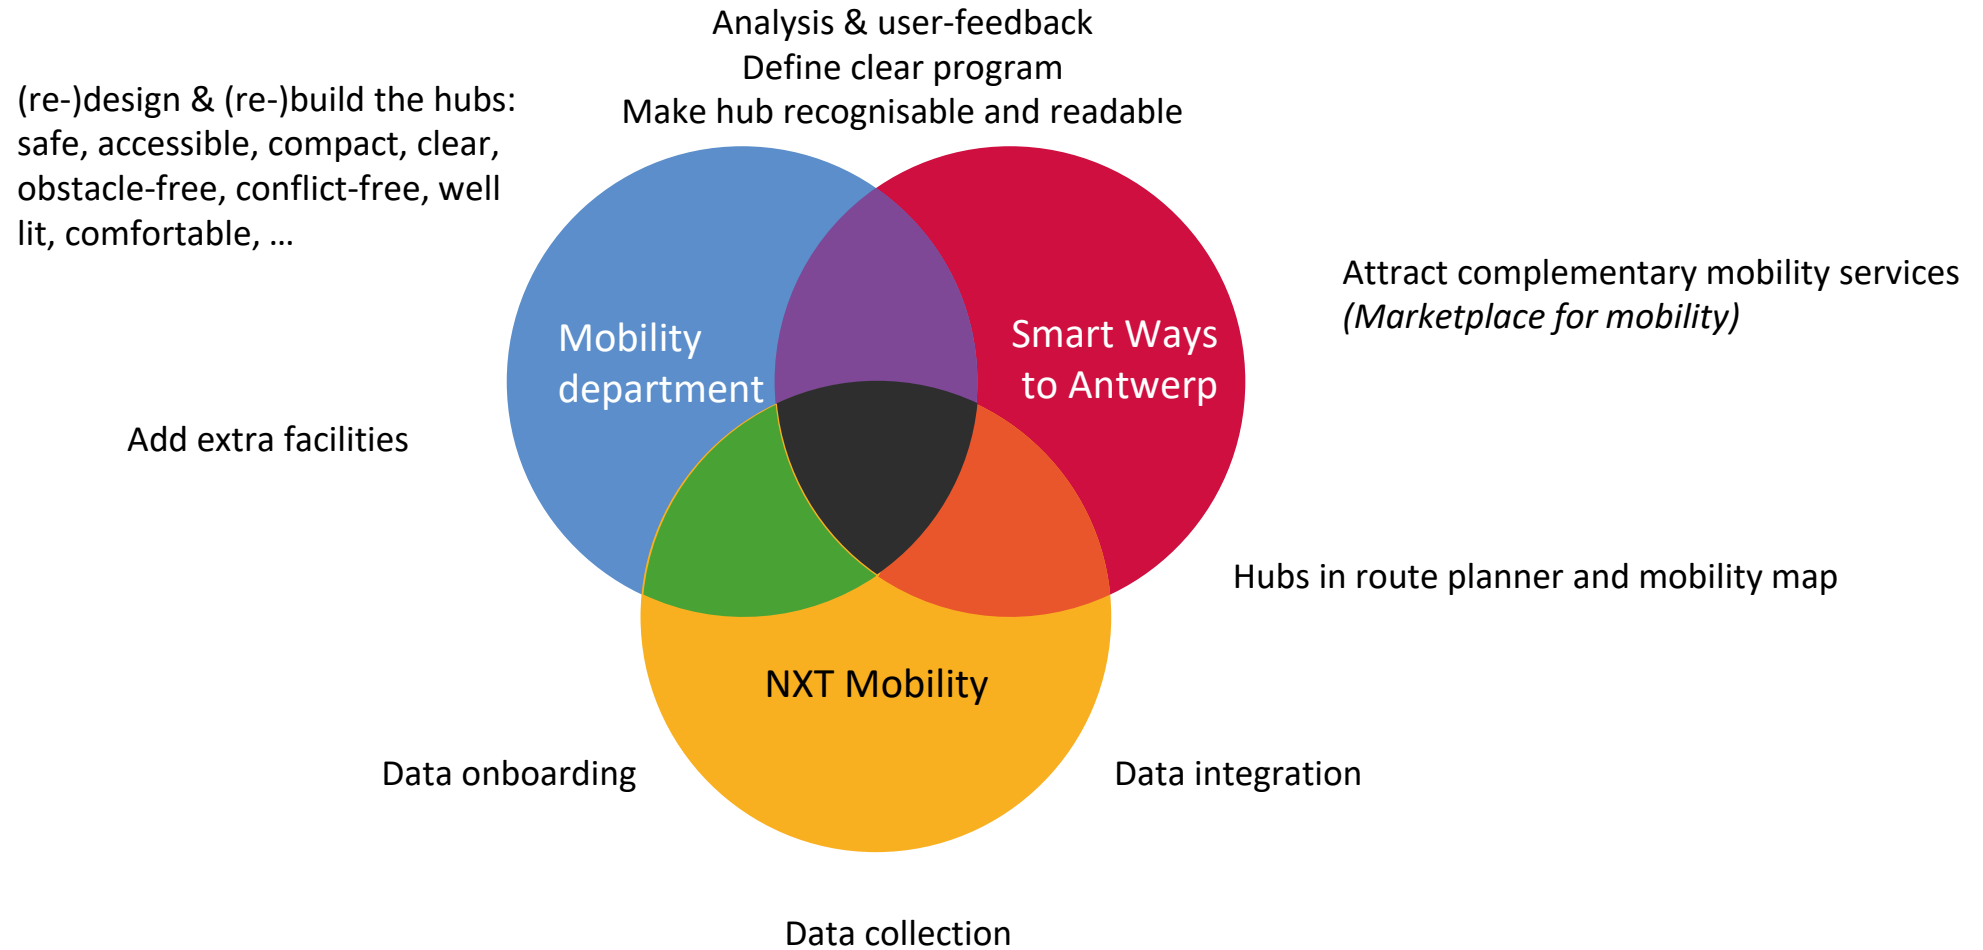

5 subcategories/types

- Living areas
- Living + attraction areas
- Attractions
- Interchange + attraction area
- Interchange

# Facilities

[illegible]

# To Do - per hub:

# Pilotcase 'Olympiade'

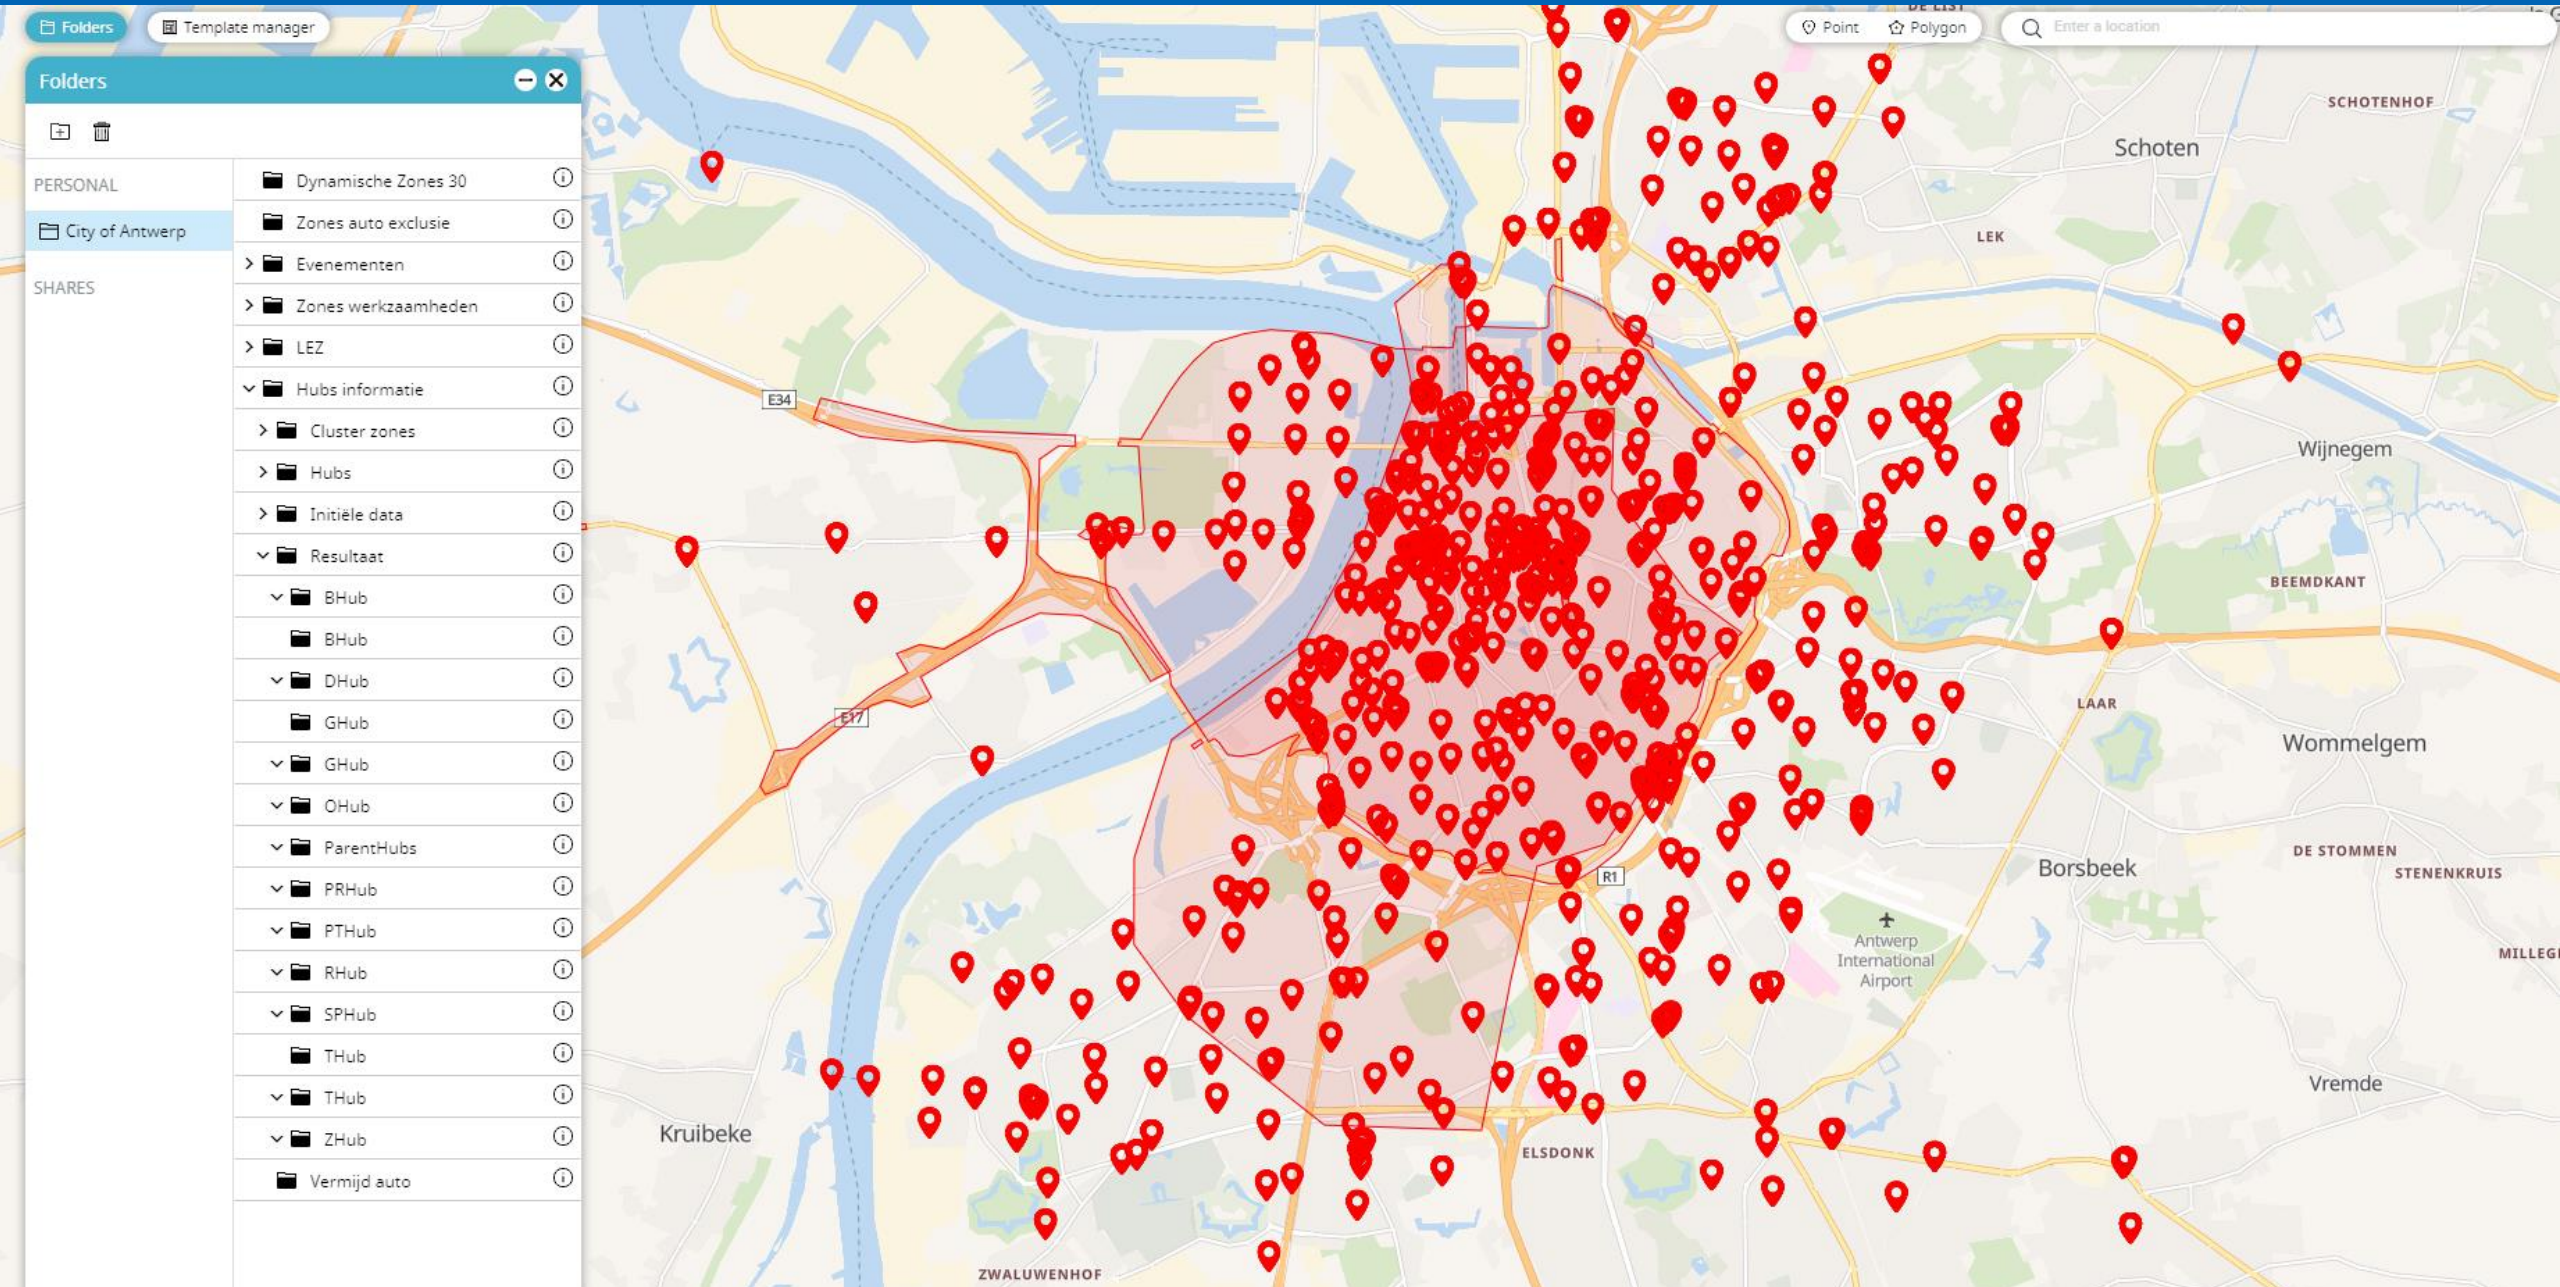

# Facilities to be further elaborated

- Lockers on-street (with battery-loading function)
- Enclosed bicycle parking on-street (with reservations?)
- Bicycle pump / repair station on-street
- Internal wayfinding system
- Digital connection
- ...

# Hubs in routeplanner

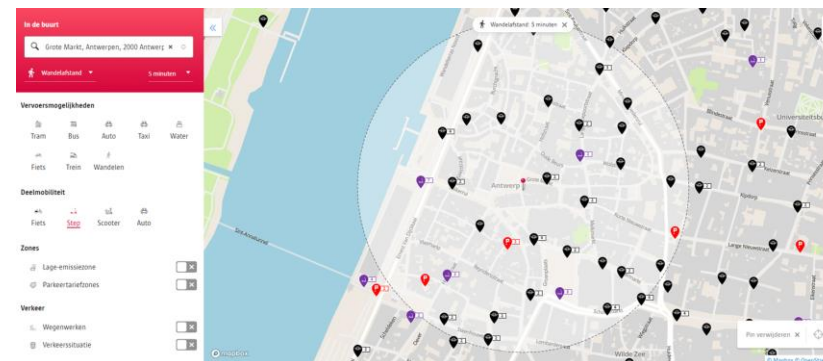

# Digital connection

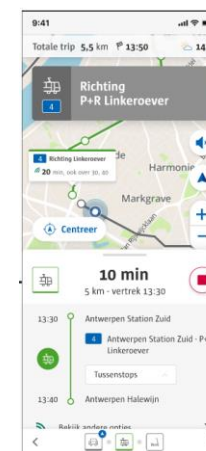

## Mobility map

- Visualisation of mobility data specific for the hub

## Route planner & Navigator

- Routeplanner app Smart Ways to Antwerp
- Intermodal route advice BeNeLux

## API-store with data from mobility services (available to third parties)

- Shared mobility providers (RT)
- Parking data
- Routing API
- Public transport data
- ...
